Location: Jaipur, Rajasthan

SUMMARY

2nd-year CSE student with skills in Python and data analysis. Built 9+ projects using Pandas and Matplotlib. Seeking Data Analytics / Python internship.

EXPERIENCE

Data Science Intern | DMV CoreTech

May 2026 – June 2026

- Performed EDA and data preprocessing using Python (Pandas, NumPy)
- Built and evaluated basic ML models
- Worked on real datasets to extract insights

EDUCATION

B.Tech – Computer Science & Engineering

Arya College of Engineering & IT | 2nd Year | 1st Year CGPA: 9.17

2024 – Present Jaipur

12th – Science

Vivekanand Sr. Sec. School, Sikar (Raj.) | Percentage: 88.9%

2024 Sikar, Raj.

10th

Vivekanand Sr. Sec. School, Sikar (Raj.) | Percentage: 92.0%

2022 Sikar, Raj.

SKILLS

- | | | |
|----------------|-----------------------|---------------------|
| • Python | • Pandas | • NumPy |
| • Matplotlib | • EDA & Visualization | • HTML / CSS |
| • C / C++ | • Git & GitHub | • VS Code / Jupyter |
| • OOP Concepts | • Problem Solving | • AI/ML (Beginner) |

PROJECTS

Weather Data Analysis – India (EDA)

Link- <https://github.com/Sameer-achara/Weather-Data-Analysis-India>

- Analyzed weather & AQI data of 50+ Indian cities using Python (Pandas, NumPy)
- Identified seasonal trends and pollution patterns through data visualization
- Created comparative analysis dashboards for temperature, humidity, and AQI

IPL 2025 Batting Statistics Dashboard

Link- <https://github.com/Sameerachara/IPL-2025-Batting-Statistics-Dashboard>

- Built a data-driven dashboard analyzing IPL 2025 batting performance
- Enabled filtering by player and team to compare strike rates and averages
- Visualized key performance metrics using Matplotlib

Student Result Analyzer

Link- <https://github.com/Sameer-achara/Student-Result-Analyzer>

- Automated result processing for students using Python and Pandas
- Implemented grade calculation, pass/fail logic, and topper identification
- Exported structured reports to Excel format

STRENGTHS

Problem Solving: –Breaks down complex data problems into clean, efficient Python solutions.

Self-Learning: Built 9+ real-world projects independently beyond academic curriculum.

Consistency: Maintained strong academic record — 9.17 CGPA, 88.9% (12th), 92% (10th).

CERTIFICATIONS

Certifications : HackerRank | Infosys | Cisco (C Essentials) | IIT Bombay (C Language) | MyGov | Hackathon Participation
